

INTERNATIONAL DYSLEXIA CONFERENCE

July 30th 2020

Just to let everyone know that today at the international dyslexia conference which unfortunately has had to be a virtual conference this year? TSSA DWG was well represented. This conference had participants from all over the world and it was heartening to see the TSSA getting recognition for the lead we have taken on Dyslexia. The DWG were involved in this initiative which started several years ago. This was featured very prominently in the Professor James Richards presentation and in fact it was the main stay of his presentation. It highlighted how far we have moved and how we have taken the initiative. It does show the TSSA and how we have addressed Dyslexia in a very good light. During that time when DWG and the offices worked very hard to gather the "Lost for words" booklet was produced with the aid of the union learning fund and the Union modernisation fund. Several of the DWG members attended this conference and it was very enjoyable.

If you would like to see a copy of the presentation please just email me on tssadwg@yahoo.co.uk

Pauline

DWG Secretary
